## **Introduction:**

The Department of Revenue encourages electronic filing however we neither support nor recommend any software company. You must address technical and support issues with the company whose product you select.

### **Types of errors:**

1. **Rejected Acknowledgment:** A “rejected acknowledgment” indicates that the electronic return was received and failed to successfully complete the pre-entry validation process.
2. **Business Rule Error:** The acknowledgement will contain an error rejection code number followed by a message indicating the condition causing the rejection.
3. **Schema Validation Error:** If the return is rejected due to a schema validation, only the schema validation error message will be displayed. This message will not contain an error rejection code number.

***Under certain conditions the rejected acknowledgment will contain both an error rejection code number and a schema validation error message.***

### **When can a taxpayer file a paper return?**

Only after all attempts to correct and re-transmit the electronic return have failed may the taxpayer file a paper return. In order for the paper return to be considered timely it must be filed by the later of the due date of the return or ten (10) business days after the date Alabama gives notification the return is rejected.

### **The paper return should include:**

1. An explanation of why the return is being filed after the due date
2. A copy of the reject notification from Alabama.
3. A signed copy of the Form AL8453-C Corporation/Partnership Income Tax Declaration for Electronic Filing to avoid late filing penalties and interest.
